

Dean Potter is a world renowned 1; known for his record breaking ascents, bold 2..... walks, extreme base jumps; he event combines these talents to use a 3..... in lieu of a rope.

"I love the idea that I can change the 4..... possible thing to the best possible thing; dying to flying.

For the past year, Dean has focused his immense energy on the 5..... of wingsuit base jumping.

"The wingsuit is basically the flying 6..... suit. You have little wings between your arms and legs that allow you to fly. Everybody kind of fantasizes about flying; and it is an amazing place in history right now that man actually has the 7..... to pull it off.

This summer Dean spent months searching the north face of the Eiger in Switzerland for an exit point higher on the mountain than anyone had jumped before.

"I've always been into 8..... and searching for the next beautiful spot and - kind of - at the highest possible point that there could be a jump at the Eiger; I just saw that beautiful 9..... board there. I just love to find that magical spot. You are just all alone and it's totally quite up there."

In August 2009, Dean Potter broke a world record, making the 10..... base jump ever achieved.

"It's about five and a half kilometres, at a two thousand metres 11..... I mean, usually base jumps usually last seconds, and now I'm floating on a three minute flight, passing over beautiful jade, hillsides, down the civilization.

Dean Potter is a world renowned 1 (**rock climber**); known for his record breaking ascents, bold 2.....(**high-line**) walks, extreme base jumps; he event combines these talents to use a 3.....(**parachute**) in lieu of a rope.

"I love the idea that I can change the 4.....(**worst**) possible thing to the best possible thing; dying to flying.

For the past year, Dean has focused his immense energy on the 5.....(**art**) of wingsuit base jumping.

"The wingsuit is basically the flying 6.....(**squirrel**) suit. You have little wings between your arms and legs that allow you to fly. Everybody kind of fantasizes about flying; and it is an amazing place in history right now that man actually has the 7.....(**skills**) to pull it off.

This summer Dean spent months searching the north face of the Eiger in Switzerland for an exit point higher on the mountain than anyone had jumped before.

"I've always been into 8.....(**exploring**) and searching for the next beautiful spot and - kind of - at the highest possible point that there could be a jump at the Eiger, I just saw that beautiful 9.....(**diving**) board there. I just love to find that magical spot. You are just all alone and it's totally quite up there."

In August 2009, Dean Potter broke a world record, making the 10.....(**longest**) base jump ever achieved.

"It's about five and a half kilometres, at a two thousand metres 11.....(**drop**). I mean, usually base jumps usually last seconds, and now I'm floating on a three minute flight, passing over beautiful jade, hillsides, down the civilization.
