Example Answer:

Being successful is on top of everybody's agenda, especially the young generation. Success in personal and professional lives stand out as the two most common goals people set in life.

Having positive thoughts is the first secret of success. Positive thoughts act as a powerful magnet that brings things your way. Also, positive thinking helps you identify your internal strengths and capabilities.

Secondly, you should find out what you are exceptional at, what field of study interests you, what activities match your inner strengths.

Thirdly, you should be able to endure failure. You should try again and again. You should be able to stay in the game until luck finds you.

Finally, you must set your priorities right and stay focused on your target. You should also steer away from harmful behaviour.
